Nurturing Growth

EARLY EDUCATION

Join our award-winning Early Education program for children aged 31 months to 5 years. With dedicated licensed teachers and skilled aides, we embrace a play-based school model that goes beyond the typical daycare approach. Through purposeful activities, we lay the foundation for lifelong learning, character development, and spiritual growth.

"At New Life, the Early Education teachers establish a personal connection with each child in the classroom. This connection is evident in the amount of love each child receives and the grace given each year."

LOWER SCHOOL

At New Life Academy, we understand the significance of laying strong foundations during the formative years of Kindergarten through 5th grade. We integrate biblical principles into everything we do, empowering students to feel strong alignment between their home, church, and school. This consistency builds strong character, equipping students to grow in their faith and eventually allowing them to communicate their beliefs in an ever-changing world.

The Value of a Christian Education

Investing in Christian education is a necessity in today's world. The changing values and perspectives of culture can make it difficult to know what is true. New Life Academy provides a solid biblical foundation for learning and teaching so students feel known, loved, and valued.

We understand the financial factors families face and actively work to establish financial partnerships for those with diverse income backgrounds.
